

Mobile: How to Create a Keys to Success Login

- The account creation process takes less than 5 minutes.
- Students may need to activate their account by entering the certification code sent via personal email.
- **Most importantly, admin verification is not necessary to be able to use the features within the KTS platform.** The verification step is there so high school students can redeem prizes otherwise they would not be able to accumulate points.

1. Download Keys to Success through the App store or Google Play

2. Select "Create Account" or click "Sign-In" for the reset password link. Then select "High School".
